## Clinical Reference Works ♦ Standards Publications ♦ Guides on Patient Care and Practice Management

### Pathways in Practice

The new edition of *Pathways in Practice* has been full revised and updated. This two volume edition, written by 73 authors and containing 74 sections, supports the syllabus of the recently restructured MFGDP(UK) examination as well as being a stand-alone publication. The easy reference format is suitable for both the individual dentist and for study groups, with 146 multiple choice questions providing an effective revision tool.

3<sup>rd</sup> Edition, 2003

**Price: Members £225 Non-members £250 VDPs £175**

### Guidance for the Management of Natural Rubber Latex Allergy in Dental Patients and Dental Healthcare Workers

These guidelines highlight the necessity for correct protocols to protect individuals in the light of increasing incidents of latex sensitivity. Full of practical, evidence-based tips, this publication details the importance of setting up and adhering to policies for the prevention and management of natural rubber latex allergy. It also gives guidance on the need to educate workers and patients, as well as protocols for referral to experts for investigation and management of individuals with symptoms of allergy.

Published 2004

**Price: Members £20 Non-members £25**

### Selection Criteria for Dental Radiography

The second edition of *Selection Criteria for Dental Radiography* has been fully revised and updated. Several sections have been updated in the light of new evidence and research findings while others, such as the use of digital radiography, have been expanded to reflect an increasing use in general dental practice. These selection criteria also conform to *The Ionising Radiation (Medical Exposure) Regulations 2000* and will help practitioners to form a sound basis for clinical decisions.

2<sup>nd</sup> Edition, 2004

**Price: Members £25 Non-members £30**

### Adult Antimicrobial Prescribing in Primary Dental Care for General Dental Practitioners

This is the third document in a series of guidelines produced by the Faculty, written to help general dental practitioners with prescribing antimicrobial agents in the primary care setting. The authors have reviewed all the available data and consulted widely with professional bodies and specialist groups in order to obtain a consensus on best clinical practice. The guidance gives clear, simple and practical advice on when to prescribe, what to prescribe, for how long and in what dose. This document is intended to complement and not replace the *Dental Practitioner's Formulary* and will be reviewed regularly and revised as new information becomes available.

Published 2000

**Price: Members £15 Non-members £20**

### Clinical Examination and Record-Keeping: Good Practice Guidelines

These guidelines provide an essential reference to different aspects of record-keeping and examination. Recommendations as to best practice are highlighted throughout the book. Additionally, a series of extensive appendices form a comprehensive resource that practitioners may adopt or adapt for use in their practice.

Published 2001

**Price: Members £15 Non-members £20**

### A Study Companion for the MFGDP(UK) Examination

This guide, written by MFGDP(UK) examiners, is designed to help candidates prepare for the three elements of the new MFGDP(UK) examination: the written papers of Part I, the coursework module, and the objective structured clinical examinations (OSCEs) and viva voce of Part II. It updates the existing *MFGDP(UK) Candidate's Guide* and is the definitive publication for candidates intending to sit the new MFGDP(UK) exam.

Published 2002

**Price: Members £12 Non-members £15 VDPs £6**

### **Guide to the Coursework Module of the MFGDP(UK) Examination**

This guide was written by MFGDP(UK) examiners specifically for the coursework module of the MFGDP(UK) examination, focusing in detail on the evidence-based portfolio element. This is an indispensable publication for anyone undertaking the coursework module, particularly vocational dental practitioners.

Published 2002

**Price: Members £12 Non-members £15 VDPs £6**

### **BDJ Basic Science Series**

The BDJ Basic Science Series is a set of 14 articles, which cover a wide range of dental topics relevant to the basic science elements of the MFGDP(UK) examination.

Papers published between 1992 and 1993

**Price: £20**

### **MFGDP(UK) Candidate's Guide**

This guide is for candidates studying for the 'old style' MFGDP(UK) examination. It has been produced following extensive development and consultation and provides candidates preparing for the examination with an essential companion. It supplies necessary advice for preparations to parts 1 and 2 and complements the existing reading list.

Published 2000

**Price: Members £15 Non-members £20**

### **Current Guidance for General Dental Practice**

The second document in the evidence-based standards series provides guidance for good practice in general dental practice. Areas covered include facilities, radiography, cross-infection control, health and safety, communication, record-keeping and indemnity, practice management, laboratory work and conscious sedation techniques.

Published 2000

**Price: Members £10 Non-members £12**

### **Radiography posters**

*Right First Time in Radiography* and *A Better Image...The Ideal Radiograph* are two posters designed to help dentists audit the quality of radiographs. The posters highlight some of the more common problems associated with taking radiographs and provide appropriate solutions.

Published 1994

**Price: £8 each or £15 for set of two posters**

### **Primary Dental Care (Journal)**

*Primary Dental Care* is the Faculty's quarterly journal, containing peer-reviewed articles written for general dental practitioners by authors well-versed in the dilemmas of general practice.

**Price: Members FREE Non-members individuals £195 VDPs £55 Institutions, Libraries £50**

### **Team in Practice (Journal)**

*Team in Practice* is a continuing professional development journal for all members of the dental team. It is published quarterly in January, April, July and October. The aim of the journal is to update the dental team on topics that affect them all, in an enjoyable and innovative manner.

**Price: Members FREE Non-members individuals £30 Institutions, Libraries £50**

### **Standards in Dentistry**

This publication brings together all previous standards and guidelines in oral healthcare. Its innovative format combines a printed manual with an online publication, allowing for frequent updates. The comprehensive manual includes tables of clinical outcomes, based on SAMS, covering 17 treatment areas. The web-based publication sets out 'Guidelines for Structure and Process in Dental Practice', a hugely valuable resource for GDPs and DCPs alike. This ambitious package is an indispensable compendium for the conscientious oral healthcare professional in helping to guide clinical and non-clinical, personal or practice-based quality assessment.

Published 2006

**Price: Members £26 Non-members £39**

*Standards in Dentistry* is also available together with four other key FGDP(UK) standards publications at a reduced price. The package includes *Standards in Dentistry, Clinical Examination and Record-Keeping, Adult Antimicrobial Prescribing in Primary Dental Care, Selection Criteria for Dental Radiography, and Guidance for the Management of Natural Rubber Latex Allergy.*

**Price: Members £85 Non-members £115**

### **Teamwork 7: A Training Companion for Dental Nurses**

The seventh volume in the *Teamwork* series provides the essential core knowledge which underpins the competencies assessed in the National Certificate for Dental Nurses or the NVQ level 3, and is relevant to all of the procedures in which dental nurses offer vital support to the dental practitioner. The book is also a valuable reference manual for any dental care professional, and is highly recommended as a guide for team training or CPD activities.

Published 2007

**Price: Members £19 Non-members £28**
