

FGDP

(UK)
ADVANCING DENTAL CARE

There is still time to apply for the Diploma in Implant Dentistry and here are some reasons why we think you should;

- You will learn from the team that has been setting the standards in the provision and teaching of implant dentistry in the UK for more than 20 years.
- Opportunity to significantly expand your knowledge and skills relating to medicines, equipment, and techniques through both practical (animal tissue and cadaveric) and theoretical teaching.
- Our course features a contemporary curriculum that will appeal to dentists with a wide range of experience with dental implants.
- Three units delivered at top of the range European dental training locations: University of Tübingen (Germany); Lake Como Institute (Italy) and University Rey Juan Carlos (Madrid).
- Supported by key dental implant system providers such as Megagen, Straumann and Dentsply.
- The qualification is awarded by the prestigious Royal College of Surgeons of *England*.
- Completing the course will give you the equivalent of 120 postgraduate credits and allows for progression opportunities to MSc programmes at several universities.
- Previous students have been able to offer a range of additional patient services post-course, including: block bone grafts sinus lifts, autogenous bone grafting, same day full arch restorations, nerve repositioning.
- Flexible payment plans are available.
- £2,300 discount on course fees for FGDP(UK) members. Joining is easy; <https://www.fgdp.org.uk/membership/benefits>

Implant dentistry is one of the fastest growing branches of dentistry. Developing skills in dental implants is becoming a greater part of general dental practice. FGDP(UK) are not only committed to helping you develop your skills, we also want to help you grow your business.
